SCRIBE POLICY

- The actual process of writing or recording answers on behalf of pupils who are unable to do so is referred to as "exam scribbling services." The Controller of Examination must grant permission for this service well in advance.
- The candidate needs a writer as allowed by the Government of India regulations controlling the hiring of physically challenged people if they are blind, have low eyesight, or are affected by a curtailed policy with regard to co-motor imprisonment.
- Only the candidates listed above with a disability of at least 40% and physical writing restrictions, including speed, are eligible for the scribe services.
- The scribe should belong to a different academic stream than that required for the given exam.
- The scribe only verbatim captures what the provider says. In the records, the scribe's name must be mentioned. The document must bear the scribe's signature and date. The CoE needs to approve the identification eligibility.
- The length of the exam will be extended dependent on the candidate's health, but under no circumstances will it exceed 15% of the allotted time.
