Palamaner,

To
The Principal,
Mother Theresa institute of engineering & Technology,
Palamaner.

Respected Sir,

Sub: Requisition for Permission to Conduct - A One Day Seminar on
“NOISE CONTROL OF BUILDINGS”-Reg.

I would like to bring to your kind notice to conduct a seminar entitled A One Day Seminar on “NOISE CONTROL OF BUILDINGS” for Civil students. Here I am requesting you sir please give permission to conduct the SEMINAR on 14-05-2018. This Seminar may enhance the students’ knowledge on the noise control of buildings.

Thanking you sir,

Permitted

DEPARTMENT OF CIVIL ENGINEERING

Report-On

“Noise Control Of Buildings”

(14-05-2018)

As the Department of CIVIL conducting the one day seminar on Noise Control Of Buildings organized for students of CIVIL on 14th MAY 2018. The technical team has given extensive knowledge on Hazardous Waste Materials.

This program was organized by B.B.C.O.Prasad, Head of the department with the co-ordination of Mr. R.Tharun, Assistant Professor, and Civil Department.

The Webinar was organized for one day effective from 14-05-2018 with a total duration of 8 hours. All the CIVIL students were benefitted from this seminar. The program was held in CIVIL Seminar hall for inauguration, theory and technical session practical were conducted in lab with live tests.

The trainers have given excellent presentation on The acoustical design issues for buildings involve the principal issues like site noise considerations, including the control of noise transfer to a project's neighbours, particularly if they are residential, establishing noise standards for each use space, including limitation of excessive ventilation noise, room acoustics considerations, sound isolation between various use spaces, vibration control for mechanical equipment, audio/visual system considerations. Therefore, it is the responsibility of the facility's planners, user groups, architects, engineers, and others involved with the project to assure that the project acoustical needs are delineated and that there is follow-through, particularly for verification testing after the ventilation system has been installed and balanced.

The Seminar successfully enhanced the confidence levels of each and every student for future attempts of improving career prospects.

The total program is successfully completed with the cooperation of each and every faculty member of the department and student participants.
